This spiral-bound paperback is compact and lightweight, organized more encyclopedically, with details on grammar, legal word choice and formatting of sentences, arguments and materials. Probably best for the legal secretary and paralegal, but attorneys will find things here that they ... don’t do. It's very cut-and-dry, which is hard to love, but could be extremely useful. Putman points at
resources for legal case information in the U.S., dry listings - still, the most I have seen outside of law school research and writing class. It is published by West Legal Studies and Thomson-Delmar Learning. Especially good if you must use correct citation forms for articles and court documents, but aren't using the 'Blue Book.' Also useful if you want to study correct grammar and word choice points but don't want to read a dissertation at the same time. It also has short sections discussing how best to structure a persuasive court brief, a legal memorandum of law, and other legal document types, which I found very good. Why do I like this book? For example, for rules on nasty buggaboos, such as where to place periods and commas when using quotation marks? You will find a useful, color-emphasized rule with examples. Now, if the Europeans would just read that rule and follow it!

I regret purchasing this book! Any person who has experience in writing and/or grammar will be gravely disappointed with the contents of this almost English 101-level text. It may be useful to ESL professionals.

Luv, Luv, Luv this book enough said. If you need some help with legal writing, for me, I could not have made a better choice. Luv, it...good buy

A must have for legal writing! Our bible for writing techniques, writing perfect legal research papers, and a guide to citations.

I got this book last summer and love it! A friend "borrowed" it and I miss it almost every day! I am buying two more today. One for me and one to give to my (paralegal) intern. For the money, an awesome buy! I would even pay more than $18 for this book!
