Labor Law In A Nutshell

Synopsis

Leslie's Labor Law reviews the early regulations set up to guide employee-employer relations and provides a snapshot for the structure and procedure of the modern-day National Labor Relations Board (NLRB). Expert commentary offers insight into the primary legal issues such as picketing, employer responses, and the duty to bargain.

Customer Reviews

It's basically a decoder ring between "what my prof said" and "what my prof meant." I don't know what I got in the course yet, but I'm glad I had this book.

This book is exactly what I thought it was. It is a concise synopsis of labor laws in the U.S. I wanted such a guide to help in my research on this subject. My first disappointment was that it didn't go back into the Colonial period but as I think about it that would be a whole other book entirely. This book deals with the actual laws that were made and describes them briefly. It is a good reference book and that is what I wanted. Richard Noble - The Hobo Philosopher - Author of: "Hobo-ing America: A Workingman's Tour of the U.S.A.."

I am an ESL teacher with a background in law. A Colombian lawyer who had previously studied with me asked me to help her with the differences between our labor laws. This book was an excellent introduction to labor law. Anyone who needs a summary of this area will benefit from this book. TCB

I purchased this book for my niece. She said that she never received it, so I re-ordered it. I think there's also trouble with the re-order. However, I personally read Labor Law in a nutshell about 20 years ago when I was an active union member. It was very informative.

Book was in good condition, and the content is good! Labor law is not the most exciting thing in the world, but overall I liked it!
