Customer Reviews

This rating is for the overall purchase. I cannot give this a low rating nor a high rating. It is a college classroom book and necessary for the material. I had no choice to purchase , and the book was not outstanding enough to give highest rating. I would not ever purchase had it not been a requirement.

Hard to get into, seems kind of boring at first. But once you do it is very informative and useful.

This textbook is in great condition. And let me tell you that the price is RIGHT!!!

The book came in in very good condition and is exactly what I needed for my class.

Book came in perfect condition. Just what I was looking for!
