Geronimo Stilton Special Edition: The Hunt For The Golden Book

Synopsis

Geronimo is on the hunt in this special edition adventure! Grandfather William was throwing me, Geronimo Stilton, a party -- it had been 10 years since I published my first book! He wanted me to write a new book especially for the occasion. Then my laptop was stolen right from under my snout. Cheese niblets, how terrible! Could my friends and I find my computer and print my book all in time for the party? BONUS! After the story, read an extra Mini Mystery adventure: THE LAKE MONSTER. When a mysterious monster is sighted in a lake on Mouse Island, Geronimo is called in to investigate! But can he figure out this creature's secret? PLUS jokes galore!

Customer Reviews

My children are still obsessed with Geronimo Stilton. They have read nearly every book in the series, as well as the spinoffs. The Hunt for the Golden Book is the 57th book in the original series, and it celebrates Geronimoâ™s 10th anniversary as an author. As always Geronimo and his family are engaged in a madcap adventure where he is pushed around by everyone who cares about him. The illustrations make the book a delight to look at, and between the pictures and the fun fonts used for words on every page make this book a great one for reluctant readers. It is a fun read, and

simple enough in terms of plot that younger readers can easily engage in it while there is enough hilarity and action to keep older elementary school readers also entertained. I appreciate that new words are explained in the book so that it isn't overwhelming, and other aspects, like how a book is made, are explained in call outs throughout the book. In this adventure, Geronimo's overbearing grandfather has found out that the girl he had a crush on when he was younger will be in town that week, and he wants to impress her. He insists that Geronimo throw a huge party celebrating his 10th anniversary and publish a book in that same timeframe that chronicles his rise and of course gives all credit to his grandfather. Magically, Geronimo is able to churn out the book, but when his laptop goes missing, he must go in search of it to retrieve his manuscript in time. This book is somewhat shorter than many others in the Geronimo Stilton series, but after the actual book, there is a mini-mystery book where Geronimo is sent to a lake to get the scoop on the mysterious loch monster that his rival Sally Ratmousen has discovered. Something is fishy, and it isn't the loch.
