Customer Reviews

I liked this book despite the fact that I think the author grossly exaggerates his success with his betting system. The author claims to have won 81% of 2000 sessions played over a nine year period using his cluster progression roulette system. In order to see if this result could be duplicated, I wrote a C++ program to simulate 2000 sessions of play using the author's five dollar game in which the first bet of the session is five dollars and in which a session ends when the player gets \$200 ahead or falls behind \$600. I ran the program 20 times for a total of 40,000 sessions. Only 67.1% of the sessions were winning sessions. Of the 20 times the program was run for 2000 sessions, the winning percentage varied from 65.1 % to 69.1%. Not once was there a cumulative win after 2000 sessions. There was always a cumulative loss ranging from \$59,726 to \$126,157, with the average loss being \$90,985. In six of the twenty 2000 sessions there was a cumulative loss of over \$100,000. In the first chapter of the book, the author gives rules for avoiding financial problems. Based on my results, one more rule is needed: Don't play this system for 2000 sessions

I played with this author for 7 years before he passed away suddenly. He was one of my best friends. His winning percentage was over 80%. We charted numbers for the post gambling number statistics. You must set a stop loss..i.e. \$1500. if you follow this system and DO NOT GET AGGRESSIVE...YOU WILL WIN. God bless you one time...ec

The author lets you know who he is based on certain demographics revealed in the book. It is a great system and works. You won't become a millionaire, but if you like to gamble and get freebies, I

think that you would like this book. The author has a lot of experience and shares this with you. It takes being good with numbers. You have to sit down and come up with a way to keep track of your winnings and losings.

Well written and instructional book on how to play Roulette. After reading the book, I played JR's system and in my first session won over \$400. The illustrations and stories in the book make it an easy read. It is fun to walk out of casino with money in your pocket. Accolades to the author!
