I finally have a coloring book that my children can't and won't snatch from me! Once I got over the first indical shock that I had a book with words my children can't say I couldn't put it down. The pages are so sturdy so I don't have to worry about markers bleeding through to the next page. I first used gel pens that my daughter had and they slid over the paper without any hiccups like I have had in the past with some books. I think the detail on each page is awesome. Not to over the top, but enough that you aren't feeling like a preschooler with crayons and you will

breeze through it. The sayings are a hoot too. Not too defensive, but enough that you want to color and send them to a friend or relative. The only downfall I see is that it has become addicting to me and that I have told my family on several occasions to find their own dinner that I was in my creating stage of the day. This coloring book would be a great present for the people in your life that get you. I can't wait to see if they will come out with some more. I received this product for free in exchange for my honest and unbiased review

Coloring books for adults have become quite the rage and I have to admit, I got drawn into it. I have always enjoyed coloring when I was younger, and people said it was relaxing as an adult. I figured that I needed to try it; stress at times is crazy. I have to admit, I got a kick out of this book. IT covers the gamut of motivation, puns, and swearing all in one book. Hubby and I were cracking up when it came, and we went through and read all of the pages. I was really upset about some things that were going on, and hubby says, you need to relax and calm down, get out that coloring book you got. Well, I did, and have to admit, after coloring, I could tell that my frustrations and tensions, just melted away. Guess, I need to keep a stack on hand for those days. The pages are pretty thick, the colors don't bleed through. It is not appropriate for young children, but not overly offensive either. You definitely need to have a sense of humor with this book. Disclaimer: I received this for a reduced price in exchange for an honest and unbiased review.

I received this Very Punny Adult coloring book of puns. I am really pleased with this coloring book. I used to color a lot of as a kid but of course we grow up and leave that to our kids. I love how the pictures have so much detail. You can color the entire page as I did or just do certain shapes and make it unique. I would let my 14 year old color in this book as she is very mature. The captions are so funny and a bit naughty but that is what is so appealing about it. The pages are sturdy. There are approx. 30 pages in the coloring book. I used markers with mine as that was all I had in the house. I used markers and it did bleed every so slightly on to the next page, so I would recommend putting a piece of paper under it if you are to use markers. Gel pens would be best to use if you have them. I can't wait to color my next page. It's fun and relaxing!! I received this product at a discount for my honest and unbiased opinion.

This is an hilarious twist on the current adult coloring craze! The art is detailed and allows for your own creative twists. The book is good quality cleanly made and all the art is one sided allowing for the use of different mediums with out the worry of them bleeding on the next page. The content is

definitely adult and provides some emotional therapy as well. I hope to see more twisted adult coloring books like this come out. I love "coloring" with my little munchkins and not wanting to scream. Therapy and quality time all in one! I received this product for free in exchange for my honest and unbiased review.
