## Customer Reviews

This is a comprehensive, clear guide to Health Care Law. It covers a vast area in a well-organized, clear fashion and is chock full of valuable information.

not very detailed,could not use it well on my exam

Too basic

I received this book very quickly. The book is in very good shape, as advertised. Because I had previewed the contents of the book before ordering it, of course it has the content I wish to learn.

So, I expect to get the information I paid for within the book. I have only read a couple of pages thus far. I look forward to its completion and would be able to give a final review, once I'm done. As for now, turnaround and advertised product, I'm giving a 4 star rating.
