Mystery Cities Of The Maya (Mystic Traveller S)

Synopsis

Gann battles pirates along Belize's coast and goes upriver with Mitchell-Hedges to the lost city of Lubaantun where they excavate a strange lost city where the crystal skull was discovered.

Lubaantun is a unique city in the Mayan world as it is built out of precisely carved blocks of stone without the usual plaster-cement facing. Lubaantun contained several large pyramids partially destroyed by earthquakes and a large amount of artefacts.

Customer Reviews

Really interesting old (1925) account of the archaeologist author's travels through the Mexican jungle, trekking with the most basic supplies. He gives fascinating details of local fauna, the lives of the indigenous Maya, and archaeological finds. He battles insects, weather, sickness, and more and takes it all in stride. Truly a fun read!

Good all the way around.
